

Md. Abdur Rahman Shibly

SOFTWARE ENGINEER

58/36/4, WASA ROAD, MODINABAG, North Mugdapara, Dhaka-1214

☎ (+880) 1329529115 | ✉ shibly.ar@gmail.com | 📱 Shibly10 | 🌐 md-abdur-rahman-shibly-67b5251b8

Career Objective

As an enthusiastic software engineer, I am passionate about leveraging AI to tackle challenging projects. Committed to continuous learning and thriving in new environments, I am driven to achieve ambitious goals and deliver high-quality solutions. I am excited to contribute to innovative teams and dedicated to advancing my skills in the evolving world of AI.

Education

BUET (Bangladesh University of Engineering and Technology)

B.Sc. IN COMPUTER SCIENCE AND ENGINEERING

CGPA 3.29

March. 2018 - May. 2023

Dhaka College

HIGHER SECONDARY

GPA 5.00

Jul. 2015 - Apr. 2017

Motijheel Model High School and College

SSC

GPA 5.00

Jan. 2009 - Feb. 2015

Skills

Programming	Python, SQL, C/C++, Java, JavaScript
Web	React, Node.js (MERN), Django, Django DRF, Spring Boot, Bootstrap
Markup	HTML, LaTeX
Tools	Docker, Git
Languages	Bengali, English

Experience

Bengal Mobile QA Solutions

WORKING ON AN AI-POWERED PARSER (**AI RULER**) TO STRUCTURE RAW CDRs BASED ON DYNAMIC RULES;

DEVELOPING A **CHATBOT** USING LLMs FOR HOTEL INTERACTIONS; MODERNIZING A HOTEL MANAGEMENT SYSTEM

WITH A MICROSERVICES-BASED ARCHITECTURE.

Software Engineer

March 2025 - Present

Computer Network Systems

CONTRIBUTED TO MULTIPLE PROJECTS INCLUDING INTERNAL SYSTEM LIKE **CBMS** USING JAVA SPRING BOOT AND

ORACLE. COLLABORATED ON AI-DRIVEN SOLUTIONS SUCH AS **APTITUDO**, **ZEUXIS.AI**, AND THE ML-POWERED

GOVERNMENT PROJECT **BISDP-BI** WHERE I WAS RESPONSIBLE FOR DATA ANALYSIS AND DEVELOPING ML MODELS.

Assistant Software Engineer

June 2023 - February 2025

Bengal Mobile QA Solutions

WORKED AS A CONSULTANT TO DEVELOP AN AI ASSISTANT FOR THE HOTEL INDUSTRY USING LLMs. FOCUSED ON

CREATING A CONVERSATIONAL AI SOLUTION TAILORED FOR HOTEL-SPECIFIC TASKS, APPLYING EXPERTISE IN

LLM-BASED SYSTEMS.

Consultant

December 2023 - July 2024

Research Experience

Leveraging the Domain Adaptation of Retrieval Augmented Generation Models for Question Answering and Reducing Hallucination

Independent Research Project

Conducted research on enhancing domain-specific question answering using Retrieval-Augmented Generation (RAG) models, with a focus on reducing hallucination and improving factual accuracy. Applied domain adaptation techniques within the hotel domain to improve response relevance. The work has been accepted at **ITNG 2025** and will be published by **Springer Nature**.

Projects

Tax Computation & Consultation

MongoDB, Express, React, NodeJS

AUTOMATED CALCULATION OF INCOME TAX, BUSINESS TAX, PROPERTY TAX. ADDITIONALLY INCLUDED FEATURES ARE LAWYER CLIENT COMMUNICATION & CONSULTATION SYSTEM VIA THREADING, FILE SHARING, NOTIFICATION & NOTICEBOARD

BISDP-BI

Django, scikit-learn, REST APIs, ML

DEVELOPED A BUSINESS INTELLIGENCE SYSTEM FOR A GOVERNMENT PROJECT FUNDED BY THE WORLD BANK. THE SYSTEM LEVERAGES MACHINE LEARNING MODELS TO ANALYZE LARGE-SCALE INSURANCE DATA AND PREDICT KEY METRICS SUCH AS REVENUE, EXPENSES, AND FRAUDULENT CLAIMS. BUILT RESTFUL APIS USING DJANGO AND IMPLEMENTED ML WORKFLOWS USING SCIKIT-LEARN AND OTHER PYTHON LIBRARIES.

Zuxis-AI

Java Spring Boot, Fal.ai, Piapi.ai

CREATED A WEB APPLICATION THAT ENABLES USERS TO GENERATE IMAGES AND VIDEOS FROM TEXT PROMPTS OR INPUT IMAGES USING STATE-OF-THE-ART GENERATIVE AI MODELS. THIS ALL-IN-ONE MEDIA GENERATION PLATFORM INTEGRATES WITH SERVICES LIKE FAL.AI AND PIAPI.AI. BACKEND SERVICES WERE DEVELOPED USING JAVA SPRING BOOT.

Aptitudo-AI

Java Spring Boot, OpenAI API

BUILT AN AI-DRIVEN RECRUITMENT PLATFORM DESIGNED TO AUTOMATE THE HIRING PROCESS. THE SYSTEM GENERATES INTERVIEW QUESTIONS, EVALUATES CANDIDATE RESPONSES, AND ASSISTS RECRUITERS IN DECISION-MAKING. IMPLEMENTED THE BACKEND USING JAVA SPRING BOOT AND INTEGRATED OPENAI'S API FOR INTELLIGENT QUESTION GENERATION AND EVALUATION.

Billing Software of Residential Hotel

Python, Django, SQLite, AJAX, Bootstrap, ChartJS

A WEB APP SOLUTION THAT IS USED FOR HOTEL MANAGEMENT. IT PROVIDES SUPPORT FOR ROOM RESERVATION, INVOICING, CUSTOMER BILL TRACKING, INVENTORY ALONG WITH DASHBOARD FOR EASIER DATA VISUALIZATION
